

Counter Intelligence: New Carmine's restaurant ready to open; Project Dinner Table helping others

CAVIAR DREAMS: In these days and nights of blistering temperatures, the coolest place in town is the vodka vault at **Red Square** in Mandalay Bay, where the temperature is kept at about five degrees! In fact, the management provides fur coats, gloves and hats to stay warm! The restaurant has six different caviars available from sustainable fisheries. You can spring big bucks for the Connoisseur Trio of beluga, osetra and sevruga from the Caspian Sea, or the way less expensive Domestic Trio of sturgeon, paddlefish and golden white fish. The Red Square caviar treat is Light Group chef **Brian Massie's** latest addition to his menu makeover.
